Re: Annual Report for the Year 1993, Rosebud Mine, S/015/039, and Brown Rose Mine, S/015/036, Emery County, Utah

Dear Ms. Rose:

Thank you for your response to our requests for the 1993 annual report for your Rosebud and Brown Rose mining operations. Your response stated that you dropped your claims this year (1993). We appreciate this response; however, we still need to have your reports filed with this Division stating what activity, if any, took place during 1993 or until the claims were dropped. The annual report forms (MR-AR) are enclosed.

We also need to know whether or not the sites were reclaimed. If so, we need the details on when and how you did this; i.e. did you seed and if so, when? What seedmix did you apply?, Is the revegetation growing?, etc. On the Brown Rose site, how did you reclaim the ponds; are all the buildings removed?, etc.

Division staff will need to inspect the sites to determine if they have been properly reclaimed before you can formally be released from any further reclamation responsibilities. Please contact Wayne Hedberg to arrange for an inspection date, since I will be leaving Division employment shortly.

Thank you for your cooperation and prompt attention in submitting the required information.

Sincerely,

Holland Shepherd
Senior Reclamation Specialist
